GREETINGS

Dear Friends: I am writing this on New Year Day 1946 and want to send, to each of you my most sincere wishes that it will be, the best year you have ever known.

With our boys back, or coming soon from the wars and with the hope, that now we will soon have Peace all over the world.

To those who have loved ones who will not be coming back, we send our deepest sympathy. They have given their lives for us, and may we all help to keep this world as they would want it to be.

I am planning that each variety listed, with many more will be growing in our garden next summer. As they bloom, they will be cut and exhibited in our basement, where you will find us ready to welcome you at any time.

There we also exhibit my seedlings, of which I have many selected for farther trial, and hope some of them may reach the high standard, I am demanding of them, before I offer them to you. I am hoping many of you will come and see the flowers and me.

Sincerely,

MRS. GEORGE KINYON

1946 - THREE EXTRA SPECIAL KINYON ORIGINATIONS

MARY KATHLEEN (Kinyon '44) (J. Van Tets X Stately Stately Lavender) (Early-Midseason). Beautiful clear white, with just a tint of lavender in throat. This makes it seem even whiter. Tall and stately with 8-10 or more blooms open and most of the buds showing color. *See cut. This spike was grown in our garden from a medium sized bulb, and was only one of many cut, which were just as good. Blooms of good substance, 4½ in. or larger. Good healthy grower, producing plenty of bulblets which germinate well. Should make one of the best commercial whites when there is enough stock. (Large, 1 bulb, \$1.00; 10 for \$8.00) (Medium, 1 for 75c, 10 for \$6.00) (Small, 1 for 50c, 10 for \$4.00) 100 bulblets for \$8.00. Not less than 25 at 100 rate.

MARGARET MARIE (Kinyon '43) (Sdlg. X Pfitzer's Triumph) (Mid-season). Beautiful ruffled blooms of deep rose-pink, shaded deeper at edges of petals. Rose-red blotch. 6 or more open at one time, with 6-7 showing color. Tall always straight spike. (Large, 1 bulb, \$1.00; 10 for \$8.00) (Medium, 1 for 75c; 10 for \$6.00) (Small, 1 for 50c; 10 for \$4.00) (Bulblets, 100 for \$10.00). Not less than 25 at the 100 rate.

SEVENTH HEAVEN (Kinyon-Kellogg '40), Large blooms of lightly ruffled pink. Tall spike with 8-10 or more blooms open with plenty more showing color. Placement of blooms always good. An ideal Exhibition variety. Late-midseason. Only large or medium bulbs for sale. 1 for \$1.15, 2 for \$1.80, 3 for \$2.50.

50 bulbs 2 each of 25 different varieties.....	\$2.25
100 bulbs 4 each of 25 different varieties.....	\$4.00

If you do not find listed the variety you want, write us about it, as we have many varieties in too small quantities to list but could spare you a few. If you are interested in buying small bulbs by the 100 or bulblets per 1000 write for prices of the ones you want. I do not have a wholesale list.

TERMS: At the prices quoted anywhere in this list we will prepay delivery on orders amounting to \$1.00 or more, to any part of the U. S. You may order 5 bulbs at 10 rate.

Every precaution is taken to produce clean, true to name bulbs. Any bulbs that prove not true to name will be gladly replaced. There will be no substitution of variety without permission. Bulbs approved by State Inspector.

GLADIOLUS CULTURE

PLANTING—Gladiolus can be planted at about the time leaves on trees are starting to show green, up to the middle of June. I like early planting best.

SOILS—They can be planted in any good garden soil that has been plowed or spaded to the depth of 8 or 10 inches.

PLANTING DISTANCE—If planted in rows, space rows from 18 to 30 inches apart. Opening a trench to the depth of about 6 inches and make an application of your favorite complete fertilizer. Use about 4 lbs. to 100 feet of row, then work well into the soil, so the bulb will not come in contact with the raw fertilizer. Set the bulbs top up 4 or 5 inches apart and in sandy soil 5 or 6 inches deep. In clay soil do not plant so deep.

SUMMER CARE—Cultivate the soil frequently throughout the summer, to keep down the weeds. Water when necessary by soaking the soil thoroughly. Deep watering stimulates healthy root action.

CUTTING—In cutting the blooms leave at least 4 leaves on the plant to mature the bulb.

DIGGING—Dig the bulbs carefully when the foliage is turning brown, but always before hard freezing weather. Cut the stems off close to the bulb, and dry the bulbs in a frost proof airy shed for about three weeks, then the old mother bulb can be removed, leaving a clean new bulb or bulbs.

STORAGE—Store in a frost proof cellar. A temperature of about 40 degrees is best. Place in shallow trays, and the different varieties can be placed loosely in thin cloth bags. Tie and label as to name of variety.
